071003 生理学 Physiology

Prof. Xiuling Deng 邓秀玲 教授

PERSONAL INFORMATION

Xiu-Ling Deng, female, Doctor of Science.

Current Position: Professor in Department of Physiology and Pathophysiology, Xi'an Jiaotong University School of Medicine.

RESEARCH INTERESTS

Giving lectures on Pathophysiology to medical students in Chinese and English;
Giving lectures on Cardiovascular Pathophysiology to postgraduates; Writing 13 textbooks or monographs as an editor or editor in chief.

RESEARCH SITUATION

Main direction of research is mechanism, prevention and treatment of cardiovascular diseases. Publications (career):95, First author or corresponding author: 53, Average impact factors (25 original articles in English only): 4.679. Research grant awarded from National Natural Science Foundation of China: 8, Doctor Science Foundation of China: 1, Natural Science Foundation of Shaanxi Province: 5, other grants: 9.

OFFICE TEL: +86-29-82657497

E-MAIL: dengxl@mail.xjtu.edu.cn

ORGANIZATION: Department of Physiology and Pathophysiology, School of Medicine, Xi'an Jiaotong University

ADDRESS: P.O. Box 72, 76 West Yanta Road, Xi'an, Shaanxi, China

POSTCODE: 710061

Prof. Weijin Zang 臧伟进 教授

PERSONAL INFORMATION

Wei-Jin Zang, Female, Ph.D. Ph.D. supervisor, International Society for Heart Research (ISHR) China branch executive committee member, vice-chairman of China Elderly Care Medical Association and Chinese Pharmacological Society Teaching and Science Committee, managing director of Chinese Pharmacological Society Cardiovascular Pharmacology Professional Committee and vice-chairman of Pharmacological Society of Shaanxi Province.

RESEARCH INTERESTS

Cadiovascular pharmacology and physiology

TEACHING SITUATION

Prof. Zang mainly teaches Cadiovascular pharmacology courses of undergraduates, graduate students and international students and won the honorary title for Outstanding Teacher of Shaanxi Province. As a principal investigator, Pharmacology Department won the national outstanding teaching team, and pharmacology course won the national bilingual model curriculum. She is the editor/associate Editor of 10 textbooks and is in charge of 3 provincial teaching reform research projects and 1 university key projects.

RESEARCH SITUATION

Prof. Zang has been in charge of 8 grants from National Natural Science Foundation of China (1 Major International Joint Research Project and 1 Key Project) and 5 grants from The Ministry of Education and Ministry of Health. She also took part in “973 projects” and “863 projects”. She published more than 100 research papers, in which more than 70 papers have been published in SCI journal.

Prof. Zang, as the first author, was awarded the Shaanxi Provincial Science and Technology First Prize for the year 2001-2002. Prof. Zang was also awarded the Shaanxi Provincial Teaching Achievement First Prize for the year 2009 and 2011. Prof. Zang won the special allowance of the State Council, Outstanding Mid-Aged Expert of the Ministry of Public Health and the CMB Distinguished Professorships

Awards.

POSTCODE: 710061

Prof. Yuming Kang 康玉明 教授

PERSONAL INFORMATION

Dr. Yu-Ming Kang is a Distinguished Professor of Physiology and a doctoral advisor in Department of Physiology & Pathophysiology at Xi'an Jiaotong University Health Sciences Center, and a Principal Investigator (PI) of Xi'an Jiaotong University Cardiovascular Research Center.

TEACHING SITUATION

Dr. Kang is a PhD supervisor and a MS supervisor, and he has mentored more than 40 PhD students and MS students. He is also a Shaanxi Distinguished Expert honored by Shaanxi Province Government.

RESEARCH SITUATION

Kang's research interests are directed toward the central neural mechanisms of heart failure and hypertension. His ongoing projects are supported by grants from the National Natural Science Foundation, the Ministry of Education, the Ministry of Science and Technology, etc. Dr. Kang has published more than 50 peer-reviewed papers in highly reputable international journals (SCI journals), and he has also published more than 100 papers in non-SCI journals.

071006 神经生物学 Neurobiology

Prof. Haixia Lu 吕海侠 教授

PERSONAL INFORMATION

Hai-xia Lu, female, study focus on Neural Stem Cells and Neural Regeneration.

RESEARCH INTERESTS

Neural Stem Cells; Regeneration and Repair; Tissue Engineer

TEACHING SITUATION

Undergraduate

Lecture for students in 8-year program (Neurobiology)

Problem based learning (PBL) tutorial for students in 8-year program

Lecture for overseas students in English (Ob&G)

Lecture for students in 7-year and 5-year program (Ob&G)

Postgraduate

Supervision to PhD and Master Candidates in Human Anatomy, Cell Biology and Neurobiology

OFFICE TEL: +86-2982657064

E-MAIL: hxl01@mail.xjtu.edu.cn

ORGANIZATION: School of Medicine, Xi'an Jiaotong University

071007 遗传学 Genetics

Prof. Hui Li 李晖 教授

PERSONAL INFORMATION

Hui Li, female, MD., Ph.D. Professor, Doctoral Supervisor, Division of Pediatrics and Neonatology, Co-Doctoral Supervisor, Xi 'an Jiaotong University-Hong Kong University of Science and Technology.

RESEARCH INTERESTS

Hui Li long engages in the clinical and basic research about effects of psychological stress and behavior of pregnant women on fetus and newborns' cognition and brain development. She established an intervention system of exercise, music and language training for newborns and infants. It's her uniqueness on early intervention for high-risk infants' brain and behavior disorder.

TEACHING SITUATION

Hui Li takes charge of the theory and practice teaching for Chinese students with different academic years and foreign students. She has been training postgraduates of pediatrics and obstetrics, including 42 Chinese master and doctoral candidates and 6 foreign master postgraduates.

RESEARCH SITUATION

Hui Li published more than 60 papers, including 25 SCI papers. She is responsible for 2 projects of Natural Science Foundation of China; 1 project of "the 11th Five-Year Plan" national science supporting plan; 10 projects composed of Shaanxi Province science and technology overall planning and innovation project, major international cooperation project, natural science foundation, science and technology developmental planning project and projects from Xi'an city, Xi'an Jiaotong University.

071010 生物化学与分子生物学

Biochemistry and Molecular Biology

Prof. Shemin Lu 吕社民 教授

PERSONAL INFORMATION

Shemin Lu, Ph.D., is a professor of Biochemistry and Molecular Biology. He has been recruiting doctor's candidates who major in Biochemistry and Molecular Biology as well as Immunology. He is also the director of Department of Genetics and Molecular Biology, School of Medical Basic Sciences, Xi'an Jiaotong University Health Science Center.

RESEARCH INTERESTS

His research is interested in localizing and cloning of susceptibility genes of complex diseases, deciphering molecular pathogenesis of chronic inflammatory diseases such as rheumatoid arthritis and asthma, and establishing and evaluating of animal models for inflammatory diseases.

TEACHING SITUATION

He has supervised 19 Ph. D. students, three of them were awarded as outstanding doctoral dissertation in Xi'an Jiaotong University, and 13 students with Master's degree.

100102 免疫学 Immunology

Prof. Ke Li 李可 教授

PERSONAL INFORMATION

Ke Li (Male), MB, PhD, now is Professor, Msc/PhD supervisor, Centre Director

RESEARCH INTERESTS

Innate Immunity, Immune cell regulation, Renal Diseases

TEACHING SITUATION

Undergraduate: Innate and Immunity A & B (4 hours Lecture), King's College London 2009-10

Postgraduate: 1 Msc and 1 PhD awarded (as 2nd Supervisor) at King's College London

2 Msc and 5 PhD at various stages of study/writing up at Xi'an Jiaotong University

RESEARCH SITUATION

My work in the last 13 years has been focused on investigating the cellular and molecular mechanisms by which complement contributes to the pathogenesis of renal infection, ischemia/reperfusion injury and transplant rejection. The major contributions to this field include: 1) first reported that complement is an important regulator for the function of antigen presenting cells and renal tubular epithelial cells to stimulate antigen specific T cell responses, which contributes to renal transplant rejection; 2) revealed novel mechanisms by which uropathogenic E coli utilize the complement receptors to invade renal tubular epithelial cells [My PhD studies at King's College London (2001-2006)]; 3) described the role of complement receptors in the pathogenesis of ischemia/reperfusion injury and revealed the involved cellular and molecular mechanisms [Post-doc and a research Fellow at King's (2006-2011)]. My research has led 21 (SCI) publications (total impact factor: 120, total SCI journal citation: 501). 2009 was awarded a Kidney Research UK Research Fellowship and was pointed as an Honorary Lecturer at King's College London. 2011 was appointed

as a GuangHua Distinguished Professor of Xi'an Jiaotong University. The established research team in the School of Medicine has obtained a number of research grants from national funding schemes.

Prof. Teng Chen 陈腾 教授

PERSONAL INFORMATION

Dr. Teng Chen is the Ph.D. supervisor & professor in department of forensic clinical medicine, college of forensic medicine, Xi'an Jiaotong University Health Science Center, China. He is the Director of Science & Technology Division, Xi'an Jiaotong University Health Science Center.

RESEARCH INTERESTS

His research focuses on drug addiction, forensic clinical medicine and forensic anthropology.

TEACHING SITUATION

Forensic Clinical Medicine and Forensic Anthropology for undergraduate, Genomics for graduate

RESEARCH SITUATION

Dr. Teng Chen is the Principal Investigator on 3 grants from the National Natural Science Foundation of China, 1 grant from the Ministry of Science and Technology of China and some other grants. In addition, he has published more than 20 papers in Neuroscience, Neuropharmacology, Forensic Science International and some other Science Citation Index journals.

Prof. Jiru Xu 徐纪茹 教授

PERSONAL INFORMATION

Jiru Xu, Professor, PhD in Biomedical Science, doctoral supervisor, director of the Department of Microbiology and immunology, School of Medicine, Xi'an Jiao Tong University.

RESEARCH INTERESTS

Medical Microbiology

TEACHING SITUATION

From September 2004, worked as a professor and director in the Department of Microbiology and Immunology, School of Medicine, Xi'an Jiao Tong University

RESEARCH SITUATION

The main research direction: molecular diagnosis of infectious diseases; the relationship of normal microflora and human; bacterial antibiotic resistance genes.

ORGANIZATION: the Second Affiliated Hospital, Xi'an Jiaotong University

100104 病理学与病理生理学 Pathology and Pathophysiology

Prof. Enqi Liu 刘恩岐 教授

PERSONAL INFORMATION

Enqi Liu, Ph.D. (Japan), Director, Laboratory for Lipid Metabolism and Atherosclerosis, Xi'an Jiaotong University Cardiovascular Research Center

TEACHING SITUATION

Laboratory Animal Science for medical students (M2)

Laboratory Animal and Animal Experiment Technique for postgraduate students

Transgenic Animal for postgraduate students

RESEARCH SITUATION

Transgenic rabbit as CVD model or bioreactor

CETP, urotensin II and endothelial lipase in atherosclerosis

Evaluation of new drugs anti-atherogenic of effects

Metagenome and CVD

POSTCODE: 710061

Associate Prof. Chunxia Yan 阎春霞 副教授

PERSONAL INFORMATION

Chunxia Yan, Female; PhD; Associate Professor, Senior Medical Examiner; Doctoral tutor;

RESEARCH INTERESTS

Forensic pathology; Drug related death and molecular mechanism of drug addiction

TEACHING SITUATION

Forensic Pathology for forensic professional undergraduates;

Criminal Science and Technology for forensic professional undergraduate;

Forensic Medicine for clinical medical undergraduates and international students;

Molecular Genetics for medical postgraduates

Genetic Marker and Electrophoretic Technique for medical postgraduates

Forensics for medical postgraduates

RESEARCH SITUATION

I started the research on drug-related death and immune function of chronic drug abuse since 1992. In 2000, I joined the Human Genome Project team for Beijing Region Sequencing (HGP 1% Task). In 2003-2005, I participated as a core team member on the NSFC research program "Phage antibody library construction and morphine antibody screening (No.30200241)". In 2007-2009, I lead the research program "Gene expression profile of brain regions associated with opioid dependence" (NSFC No. 30672356) and the program accomplished successfully after three years of efforts. In 2006-2007, I worked at the University of Cincinnati Medical College and Vonts Center for Molecular Study as a visiting scholar and acquired new technology of gene transcription and regulation. New technology that allows for the tracking chromosome remodeling was applied in detecting molecular bases of opioid addiction and the study projects were funded by the HR foundation (2009) and NSFC (2011).

Associate Prof. Yonghui Dang 党永辉 副教授

PERSONAL INFORMATION

Yonghui Dang, male, 40 years old; M.D.& Ph.D.; Associate Professor; Vice-Dean of the Department of Forensic Medicine; Doctoral Tutor

RESEARCH INTERESTS

Neurobiology of Major Psychosis/Drug Addiction/ Pain

TEACHING SITUATION

Teach Psychiatry, Forensic Psychiatry, Forensic Toxicology and Forensic Toxin Analysis for forensic undergraduates;

Psychiatry, Forensic Medicine for clinical medical undergraduates;

Forensic Medicine for international students;

Participate in compiling two teaching materials

RESEARCH SITUATION

Publishing 23 SCI papers, including 6 ones as the corresponding author and 7 ones as the first author

Compiling 4 academic monographs

Hosting two National Natural Science Foundations of China

E-MAIL: psydyh@mail.xjtu.edu.cn

ORGANIZATION: Xi'an Jiaotong University

ADDRESS: College of Medicine & Forensics, Xi'an Jiaotong University Health Science Center, Yanta Road 76#, Xi'an, Shannxi, P.R.China

POSTCODE: 710061

Assistant Prof. Xinshe Liu 刘新社 副教授

PERSONAL INFORMATION

- 2004 Regular member of the Chinese Society of Forensic sciences
- 1999 Member of the Chinese Society of Anthropology
- 1998 Member of the Chinese Society of Forensic Sciences
- 1987 Regular member of the Chinese Society of Forensic Sciences in Shaanxi

ADVISOR: MASTER, OCTOR

TEACHING SITUATION

2006, 09-present: Associated Professor of pathology and forensic sciences

Institute of Human Genomics and Forensic Sciences

Xi'an Jiaotong University College of Medicine

Teach: Forensic pathology; Forensic medicine

2005,05-2006,09: Postdoctoral Scholar of The University of California, Department of Neurology ,University of California at Davis,CA,USA

1993, 07-2001, 02: Assistant Professor. Faculty of Forensic Medicine, Xi'an Medical University

1987, 07-1990, 07: Tutor of forensic pathology, Faculty of Forensic Medicine,Xi'an Medical University

RESEARCH SITUATION

1. Neuroscience study: a. Study on Mechanism of Drug Addiction; b. Biological Diagnosis of Schizophrenia.
2. Study on Medical Malpractice Expertise.
3. Study on Drug and Poison analysis.

100201 内科学 Internal Medicine

Prof. Jun Zhang 张军 教授

PERSONAL INFORMATION

Resident in Dep.of Medicine (as above)

Resident in Section of Gastroenterology, Dep. of Medicine

1989.9-1990.8 Physician-in-charge in Section of Gastroenterology, Dep. of Medicine

Teaching medical students about “Internal Medicine”

1993.10-1996.5 Assistant professor in Section of Gastroenterology and Endoscopy Center

1996.3-2000.6 Associate professor in Section of Gastroenterology and Endoscopy Center

1997.5-2002.1 The vice director of Section of Gastroenterology and Dep. of Medicine

2002.1-2010.6 Academic Dean of Second Teaching Hospital of Xi’an Jiaotong University

2000.6-now Professor in Section of Gastroenterology and Endoscopy Center

RESEARCH SITUATION

Scientific Research

2009: Project funded by National Key Technology R&D program

Fang Xiucui, Zhang jun, et al. Treatment Standard of Functional Gastrointestinal Diseases

2007: Project funded by China Ministry of Health

Zhang Jun, et al. Barrett’s Esophagus and Adenocarcinom

2005: Project funded by Janssen Natural Science Fund

Zhang Jun, et al. Study of the Relationship between Hp Infection with Cardia Adenocarcinoma and NF- κ B expression in precancerous lesions

2004: Project funded by National Natural Science Fund

Zhang Jun, et al. Proteome Analysis of the Difference between Cardia

Adenocarcinoma with the precancerous lesions

National Natural Science Fund 30470785

2003: Project of Shaanxi scientific and technological projects

Zhang Jun, et al. Study of the Mechanism of NSAIDs Preventing the upper
gastrointestina Tumor

Shaanxi Natural Science Fund 2003k10-G50

2002: Project of Shaanxi International cooperation projects

Zhang Jun, et al. Study on Relationship between Barrett's Esophagus 、
Gastro-oesophageal Reflux Disease and H. pylori Infection

2003: Scientific Research Fund of Xi'an Jiao Tong University

Zhang Jun, et al. Experimental Study of hypermethylation in the cancer of esophagus,
cardia and stomach

2001: Clinical project of MINISTRY OF HEALTH

Zhang Jun, et al. epidemic and clinic study of Barrett's esophagus in China

OFFICE TEL: +86-29-87679315

POSTCODE: 710004

Prof. Mingwei Chen 陈明伟 教授

PERSONAL INFORMATION

MingWei Chen, graduate of 1987, he has since then worked at the department of respiratory medicine of the first affiliated hospital of Xi'an Jiaotong University School of Medicine. In 2004 and 2011 Prof. Chen visited Japan Medical University, Japan, and the Medical School at University of Auckland, New Zealand, respectively as a research fellow.

RESEARCH INTERESTS

1. Basic and clinical research on lung cancer.
2. Diagnosis and treatment of respiratory diseases and the study of relative mechanism.

TEACHING SITUATION

His work has involved clinical, academic and scientific research. He has been involved with teaching international students, 8 year's students, 7 year's students and 5 year's students the courses of Internal Medicine and Diagnostics. He has served as editor and deputy editor of numerous publications such as "Internal Medicine", "Clinical Skills", "21st century Diagnostics", "Internal Medicine clinical procedures", "Internal medicine question bank", "Percutaneous pleural and lung biopsy" and "Audio-visual teaching material", etc. He has presided over numerous the new progresses in diagnosis and treatment of lung cancer national-level CME courses.

RESEARCH SITUATION

He presides over 3 National Natural Science Foundation projects, 1 State Bureau of Traditional Chinese Medicine Scientific Research project; 2 provincial scientific research project. He has published more than 50 papers, 15 SCI papers.

E-MAIL: chenmw36@163.com

ORGANIZATION: Xi'an Jiaotong University

ADDRESS: The First Affiliated Hospital of School of Medicine of Xian Jiaotong University

Prof. Min Liu 刘敏 教授

PERSONAL INFORMATION

MIN LIU, M.D. & Ph.D., member of Shaanxi infections diseases association, vice chairman of Tumor biological therapy professional committee of Shaanxi anticancer association, member of Chinese society of hepatology of Chinese medical association youth committee, editor of Chinese journal of experimental and clinical infectious diseases (electronic version).

RESEARCH INTERESTS

The diagnosis and treatment of viral hepatitis and liver cancer

TEACHING SITUATION

Take charge of teaching medical student and international students.

RESEARCH SITUATION

Grant Support

2012.1-2015.12 National Natural Science Foundation

2005.1-2007.12 National Natural Science Foundation

Prof. Xiaolan Lu 鲁晓岚 教授

PERSONAL INFORMATION

Professor Xiaolan Lu, female, doctor, vice director of digestive department, chief physician, doctoral tutor.

TEACHING SITUATION

Vice chairman of Shaanxi liver disease Society, Standing Committee Member of Shaanxi endoscopy Society, national committee member of National complicated and severe liver disease cooperation ; national science advisory expert for liver disease; National natural science foundation of evaluation experts of trial, practical liver magazine editors, Dr Liver magazine editors. Several teaching reform projects of medical college affiliated hospital; the third prize of Bilingual teaching competition of Xian Jiaotong univerty.

RESEARCH SITUATION

Study in Nippon medical school for one year in 2005. She is skilled in almost all sorts of endoscopic treatment at the same time. Now have presided over the national natural science fund, guanghua school funds, 985 science and technology research projects, etc.; won the second prize of scientific and technological achievements in Shaanxi. Editor of nearly 10 books, Publicationa more than 40 papers, including SCI, Medline cited papers.

POSTCODE: 710061

Prof. Shuanying Yang 杨拴盈 教授

PERSONAL INFORMATION

Shuanying Yang , male, was born in April, 1966, got Bachelor, Master and Doctor degree of Science acquired from Xi'an Jiaotong University, School of Medicine in 1988, 1993 and 2006, respectively.

RESEARCH INTERESTS

lung cancer molecular biology and proteomics.

TEACHING SITUATION

Ph.D & MD supervisor, Chief Physician, Professor, Deputy Director of the Department of Respiratory Medicine

RESEARCH SITUATION

In 2003 I was named advanced individuals against SARS of Xi'an Jiaotong University and the Second Affiliated Hospital. I was be selected “the Ministry of education program for New Century Excellent Talents”in 2006. I got the honor of the eighth “China's Respiratory Physicians Award” in 2013.

Academic Status:

1. Commissary of Lung Cancer and Endoscope Group of Respiratory Branch, China Medical Association.

2. Commissary of Chinese Association for Bronchology and Interventional Pulmonology (CABIP)

3. Member of Editorial Board:

《Chinese Journal of Tuberculosis and Respiratory Diseases》 (Chinese)

《Chinese Journal of Lung Disease 》 (Chinese)

《World Journal of Meta Analysis》 (English)

ORGANIZATION: Xi'an Jiaotong University

Prof. Ke Li 李可 教授

PERSONAL INFORMATION

Ke Li (Male), was born in 10th August 1977, got MB, PhD degree, Current Position is Professor, Msc/PhD supervisor, Centre Director

RESEARCH INTERESTS

Innate Immunity, Immune cell regulation, Renal Diseases

TEACHING SITUATION

Undergraduate: Innate and Immunity A & B (4 hours Lecture), King's College London 2009-10

Postgraduate: 1 Msc and 1 PhD awarded (as 2nd Supervisor) at King's College London

RESEARCH SITUATION

My work in the last 13 years has been focused on investigating the cellular and molecular mechanisms by which complement contributes to the pathogenesis of renal infection, ischemia/reperfusion injury and transplant rejection. The major contributions to this field include: 1) first reported that complement is an important regulator for the function of antigen presenting cells and renal tubular epithelial cells to stimulate antigen specific T cell responses, which contributes to renal transplant rejection; 2) revealed novel mechanisms by which uropathogenic E coli utilize the complement receptors to invade renal tubular epithelial cells [My PhD studies at King's College London (2001-2006)]; 3) described the role of complement receptors in the pathogenesis of ischemia/reperfusion injury and revealed the involved cellular and molecular mechanisms [Post-doc and a research Fellow at King's (2006-2011)]. My research has led 21 (SCI) publications (total impact factor: 120, total SCI journal citation: 501). 2009 was awarded a Kidney Research UK Research Fellowship and was pointed as an Honorary Lecturer at King's College London. 2011 was appointed as a GuangHua Distinguished Professor of Xi'an Jiaotong University. The established research team in the School of Medicine has obtained a number of research grants from national funding schemes.

Prof. Hui Li 李晖 教授

PERSONAL INFORMATION

Hui Li, female, MD., Ph.D. Professor, Doctoral Supervisor, Division of Pediatrics and Neonatology, Co-Doctoral Supervisor, Xi 'an Jiaotong University-Hong Kong University of Science and Technology.

RESEARCH INTERESTS

Hui Li long engages in the clinical and basic research about effects of psychological stress and behavior of pregnant women on fetus and newborns' cognition and brain development. She established an intervention system of exercise, music and language training for newborns and infants. It's her uniqueness on early intervention for high-risk infants' brain and behavior disorder.

TEACHING SITUATION

Hui Li takes charge of the theory and practice teaching for Chinese students with different academic years and foreign students. She has been training postgraduates of pediatrics and obstetrics, including 42 Chinese master and doctoral candidates and 6 foreign master postgraduates.

RESEARCH SITUATION

Hui Li published more than 60 papers, including 25 SCI papers. She is responsible for 2 projects of Natural Science Foundation of China; 1 project of "the 11th Five-Year Plan" national science supporting plan; 10 projects composed of Shaanxi Province science and technology overall planning and innovation project, major international cooperation project, natural science foundation, science and technology developmental planning project and projects from Xi'an city, Xi'an Jiaotong University.

Prof. Xiaohong Liu 刘小红 教授

PERSONAL INFORMATION

Xiaohong Liu, female, 50 years old, M.D., Professor, Chief physician, postgraduated student mentor, the current director of the Department of Pediatrics in the first affiliated hospital of Xi'an Jiaotong University, the standing director of China Healthy Birth Science Association and Shaanxi Rehabilitation Medicine Association, the chairman of Shaanxi Pediatric Rehabilitation Professional Committee, the vice chairman of Shaanxi Academy of Pediatrics and Xi'an Academy of Pediatrics, the preliminary examination expert of National Natural Science Foundation and the editorial board member of International Journal of Pediatrics, Chinese journal of Perinatal Medicine, Journal of Clinical Pediatrics, Chinese Journal of Contemporary Pediatrics, Chinese journal of child health care.

RESEARCH INTERESTS

Pediatric brain disease, brain development, the respiratory system and infectious diseases.

Being specialize in the diagnosis and treatment of epilepsy in children, the prevention of recurrence of febrile convulsion, the early intervention of the brain injury of Neonatal hypoxic-ischemic and the rehabilitation treatment of brain and nerve.

RESEARCH SITUATION

She has accumulated plenty of clinical experience in the duration of diagnosing and treating diseases such as encephalitis, meningitis, Cerebral palsy, Migraine, TD, ADHD and Learning difficulties and have published 38 academic papers and 11 books and host 2 international cooperation projects, 1 National Natural Science Foundation item and 4 provincial and bureau level researches. So far, she has achieved Shaanxi provincial government technological award, Shaanxi Provincial education commission technological award, Shaanxi provincial government teaching achievement prize and so on.

PERSONAL INFORMATION

Yan Zheng, female, 40 years old, PhD., MD., professor, associate chief physician, Master and doctoral tutor.

RESEARCH INTERESTS

Diagnosis and treatment of psoriasis and skin tumor, skin laser cosmetology, dermatopathology

TEACHING SITUATION

She taught 9 masters and seven-year program students, 9 doctors and eight-year program students.

RESEARCH SITUATION

Hosting 4 national natural science foundations and 1 support by New Century Excellent Talents of the education ministry and 1 Startup Foundation for Returned Overseas; Won the “Outstanding Youth Cultivation” support. Published and received more than 60 papers, among which 20 were SCI papers (published in JID, Immunology, BJD, and Plos one, Dermatology, EJD, et al), and was quoted by the world authoritative magazine (Nature Review Immunology, the IF: 30). Be the reviewer of BJD and IJD. As deputy editor or involved editor participated in the writing 6 books. Spoke and won award at domestic and international conferences many times. The study focuses are the combined treatment of traditional Chinese and Western Medicine for psoriasis and dermatopathology (won the first dermatopathology qualification certificate of China).

Prof. Jian Yang 杨健 教授

PERSONAL INFORMATION

Jian Yang , male,43-year-old. is Professor and vice director of Department of Radiology in the First Hospital of Xi'an Jiaotong University. He awarded the master degree of medical imaging and nuclear medicine in Xi'an Medical University in 1998, and awarded the Ph.D. of Biomedical Engineering in School of Life Science and Technology in Xi'an Jiaotong University in 2004. He studied as postdoctoral fellow in Laboratory of Biomedical Imaging and Signal Processing, Department of Electrical and Electronic Engineering in the University of Hong Kong during 2005-2007.

RESEARCH INTERESTS

Magnetic resonance functional and molecular imaging, MRI study of neonatal brain development and brain injury

TEACHING SITUATION

He has supervised graduate students more than twenty, who published more than 10 SCI papers. One of his students obtained the Summa Laud Award award of 2014 ISMRM (International Society for Magnetic Resonance in Medicine)

RESEARCH SITUATION

Professor Yang was selected by the Program for New Century Excellent Talents in University of Ministry of Education of China in 2011. He is a national youth member of Chinese Society of Radiology (CSR) and a member of magnetic resonance imaging group of CSR. He had published more than 20 articles in NeuroImage, Magnetic Resonance in Medicine, Am J Neuroradiol, and many other international journals.

ORGANIZATION: Xi'an Jiaotong University

ADDRESS: 277 West Yanta Road, Xi'an, Shannxi

POSTCODE: 710061

Prof. Xinhan Zhao 赵新汉 教授

PERSONAL INFORMATION

Xinhan Zhao was born in July 1964. In July 1988 he graduated from Medical department of Xi'an Medical University and got bachelor's degree of clinical medicine. He got his master's degree of oncology in July 1993. In June 2004 he received his doctoral degree in Internal medicine of Xi'an Jiaotong University. And now he is a chief physician in the First Hospital Affiliated to school of Medicine of Xi'an Jiaotong University.

RESEARCH INTERESTS

Targeted gene therapy of tumor; early molecular diagnosis of tumor; Multidisciplinary treatment of tumor

TEACHING SITUATION

Supervised 55 graduate students, among whom 34 have got Master's degree or Doctor's degree.

RESEARCH SITUATION

Chairing 4 National Natural Science Foundation projects; Training graduate students hosting 3 National Natural Science Foundations of China Youth Science Fund. Chairing one Shaanxi Province "13115" Scientific and Technological Innovation Project, one Doctoral Fund of Ministry of Education, one Wu Jieping Medical Foundation clinical research special fund and other ten scientific projects.

Prof. Shuanying Yang 杨拴盈 教授

PERSONAL INFORMATION

Shuanying Yang , male, was born in April, 1966, got Bachelor, Master and Doctor degree of Science acquired from Xi'an Jiaotong University, School of Medicine in 1988, 1993 and 2006, respectively.

RESEARCH INTERESTS

lung cancer molecular biology and proteomics.

TEACHING SITUATION

Ph.D & MD supervisor, Chief Physician, Professor, Deputy Director of the Department of Respiratory Medicine

RESEARCH SITUATION

In 2003 I was named advanced individuals against SARS of Xi'an Jiaotong University and the Second Affiliated Hospital. I was be selected “the Ministry of education program for New Century Excellent Talents”in 2006. I got the honor of the eighth “China's Respiratory Physicians Award” in 2013.

Academic Status:

1. Commissary of Lung Cancer and Endoscope Group of Respiratory Branch, China Medical Association.
2. Commissary of Chinese Association for Bronchology and Interventional Pulmonology (CABIP)
3. Member of Editorial Board:
 - 《Chinese Journal of Tuberculosis and Respiratory Diseases》 (Chinese)
 - 《Chinese Journal of Lung Disease 》 (Chinese)
 - 《World Journal of Meta Analysis》 (English)
 - 《International Journal of Respiration》 (Chinese)
 - 《Asian Journal of Oncology case studies》 (Chinese)

Therapy

Prof. Ming Zhang 张明 教授

PERSONAL INFORMATION

Ming Zhang, Male, MD, Post-doc.Professor, Consultant Physician, Doctoral tutor in Xi'an Jiaotong University, Department of Medical Imaging and Nuclear Medicine, Forensic Medicine and Biomedical Engineering. Engage in Diagnostic Imaging and Research in the First Affiliated Hospital of Xi'an Jiaotong University. He is the Director of Human resource and development of Xi'an Jiaotong University Health science center from 2013.

RESEARCH INTERESTS

Diagnostic Imaging and Research

TEACHING SITUATION

Guided 19 doctor degree students (including 2 foreign students of which Dr. Netra Rana graduated MD program of 2014 session) and more than 20Master's degree students

RESEARCH SITUATION

3 National Natural Science Funds and guided Doctor Degree students to achieve 3 National Natural Science Funds

Published more than 20 SCI papers in which Dr. Rana has participated to complete 12 of the SCI papers

Prof. Sicen Wang 王嗣岑 教授

PERSONAL INFORMATION

Sicen Wang, Male, 40, Ph.D. , Director of Chromatographic Analysis Lab. for Traditional Chinese Medicine, Vice Director of National Engineering Research Center for Local Joint for Screening & Analysis of Natural Vascular Medicine, Experts of Natural Science Foundation of China.

RESEARCH INTERESTS

Screen the active components from natural medicines and developing new drugs, and pharmaceutical quality control using various analytical techniques. The main objective of this work is to discover active compounds from Chinese folk herb medicine.

TEACHING SITUATION

Analytical Chemistry, Introduction of Modern Instrumental Analysis, and Introduction of Chinese Medicine, Chromatographic Analysis for Chiral Drugs, for post graduated students. These courses were taught jointly with laboratory work.

RESEARCH SITUATION

Reviewer of TrAC、 J Chromatogr A、 J Pharm Biomed Anal、 J Chromatogr B、 Biomed Chromatogr、 J Sep Sci、 Planta Medica et al.

Awards:

Oct. 2012– 2nd Prize for National Award for Technological Invention

November. 2010 – Shaanxi Rising Star for Science and Technology

April. 2009 – New Century Excellent Talents in University

November. 2008 – Shaanxi Scientific Award for Natural Sciences

June. 2006 – Shaanxi Scientific Award for Natural Sciences

December. 2005 – Shaanxi Pharmaceutical Association Outstanding Pharmaceutical Scientist

November. 2004 – Chinese Scientific & Technological Development Found Award for Food & Drug monitoring

Prof. Zengjun Guo 郭增军 教授

PERSONAL INFORMATION

Further education Purdue University, America.

(2006.4-2006.8)

Ph.D. (2003-2008) Pharmacognosy, Shenyang Pharmaceutical University, China

M.Sc.(1991-1994) Pharmacognosy , Xi'an Medical University, China

B.Sc. (1987.7) Pharmacy, Xi'an Medical University, China

RESEARCH INTERESTS

Focus on the quality standards, development and utilization and national survey on Chinese material medica resources.

Focus on the natural and effective constituents in natural drugs.

TEACHING SITUATION

1987.7-2000.4 Teaching assistant and lecturer in School of Pharmacy, Xi'an Medical University.

2000.4-2005.1 Lecturer and associate professor in School of Pharmacy, Xi'an Jiaotong University.

2005.1-2013.7 Associate professor, professor and deputy director in Department of Pharmacy, Xi'an Jiaotong University

2013.7- professor and deputy director in School of Pharmacy, Xi'an Jiaotong University

Associate Prof. Yu Fang 方宇 副教授

PERSONAL INFORMATION

Yu Fang, male, 37, Ph.D, associate professor, research fellow at the WHO Collaborating Center for Pharmaceutical Policy and Harvard Medical School, Vice dean of the School of International Education, Xi'an Jiaotong University

RESEARCH INTERESTS

Pharmaceutical policy and rational use of medication

TEACHING SITUATION

Teach Pharmacoeconomics, Pharmaceutical policy, Pharmacy Regulation Law, and Pharmacy Introduction

RESEARCH SITUATION

Takes charge of 12 scientific research projects, NSFC project, province level project, province level social science project and WHO international cooperation project; He take part in 6 science project, published more than 60 papers, 6 papers were included in SCI and worte 20 books. He visited Harvard Medical School (US) as a research fellow in 2012 and University of Minnesota (US) as a visiting scholar in 2007.

PERSONAL INFORMATION

2004 Regular member of the Chinese Society of Forensic sciences
1999 Member of the Chinese Society of Anthropology
1998 Member of the Chinese Society of Forensic Sciences
1987 Regular member of the Chinese Society of Forensic Sciences in Shaanxi

ADVISOR: MASTER, DOCTOR

TEACHING SITUATION

2006, 09-present: Associated Professor of pathology and forensic sciences
Institute of Human Genomics and Forensic Sciences
Xi'an Jiaotong University College of Medicine
Teach: Forensic pathology; Forensic medicine
2005,05-2006,09: Postdoctoral Scholar of The University of California, Department
of Neurology ,University of California at Davis,CA,USA
1993, 07-2001, 02: Assistant Professor. Faculty of Forensic Medicine, Xi'an Medical
University
1987, 07-1990, 07: Tutor of forensic pathology, Faculty of Forensic Medicine,Xi'an
Medical University

RESEARCH SITUATION

1. Neuroscience study: a. Study on Mechanism of Drug Addiction; b. Biological
Diagnosis of Schizophrenia.
2. Study on Medical Malpractice Expertise.
3. Study on Drug and Poison analysis.

Prof. Weijin Zang 臧伟进 教授

PERSONAL INFORMATION

Wei-Jin Zang, Female, 56, Ph.D. Ph.D. supervisor, International Society for Heart Research (ISHR) China branch executive committee member, vice-chairman of China Elderly Care Medical Association and Chinese Pharmacological Society Teaching and Science Committee, managing director of Chinese Pharmacological Society Cardiovascular Pharmacology Professional Committee and vice-chairman of Pharmacological Society of Shaanxi Province.

RESEARCH INTERESTS

Cadiovascular pharmacology and physiology

TEACHING SITUATION

Prof. Zang mainly teaches Cadiovascular pharmacology courses of undergraduates, graduate students and international students and won the honorary title for Outstanding Teacher of Shaanxi Province. As a principal investigator, Pharmacology Department won the national outstanding teaching team, and pharmacology course won the national bilingual model curriculum. She is the editor/associate Editor of 10 textbooks and is in charge of 3 provincial teaching reform research projects and 1 university key projects.

RESEARCH SITUATION

Prof. Zang has been in charge of 8 grants from National Natural Science Foundation of China (1 Major International Joint Research Project and 1 Key Project) and 5 grants from The Ministry of Education and Ministry of Health. She also took part in “973 projects” and “863 projects”. She published more than 100 research papers, in which more than 70 papers have been published in SCI journal.

Prof. Zang, as the first author, was awarded the Shaanxi Provincial Science and Technology First Prize for the year 2001-2002. Prof. Zang was also awarded the Shaanxi Provincial Teaching Achievement First Prize for the year 2009 and 2011. Prof. Zang won the special allowance of the State Council, Outstanding Mid-Aged Expert of the Ministry of Public Health and the CMB Distinguished Professorships

Awards.
